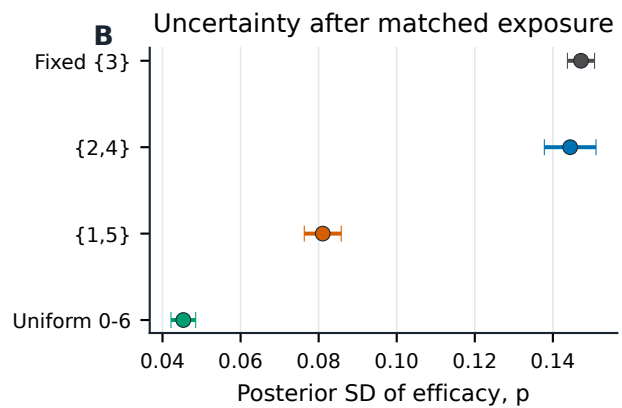
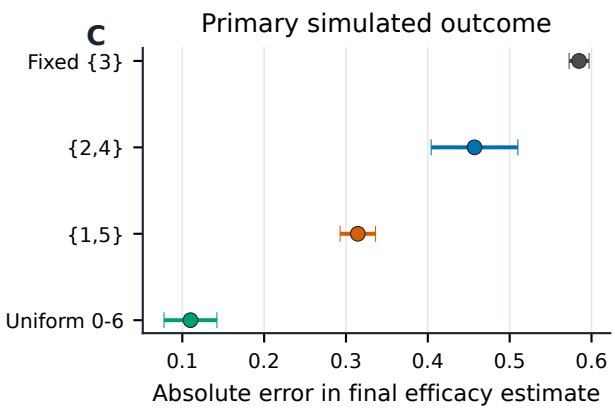
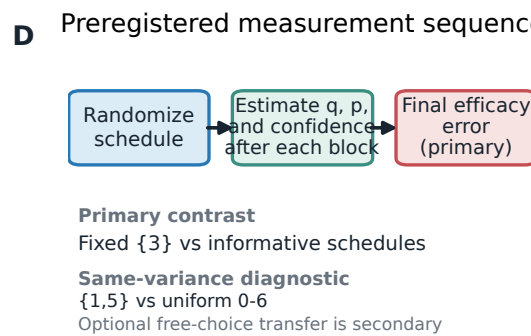
3
4
5
6
Assigned action count, k



B
Uncertainty after matched exposure
Fixed {3}
{2,4}
{1,5}
Uniform 0-6
0.04
0.06
0.08
0.10
0.12
0.14
Posterior SD of efficacy, p



C
Primary simulated outcome
Fixed {3}
{2,4}
{1,5}
Uniform 0-6
0.1
0.2
0.3
0.4
0.5
0.6
Absolute error in final efficacy estimate



D
Preregistered measurement sequence
Randomize schedule
Estimate q, p, and confidence after each block
Final efficacy error (primary)
Primary contrast
Fixed {3} vs informative schedules
Same-variance diagnostic
{1,5} vs uniform 0-6
Optional free-choice transfer is secondary
